GKM Adit Sampling Messages\_06Oct15\_v2.docx

Hi David,

Here is our draft messaging on the Mine Adit sampling. I know this was important to Shaun and Martin.

I know this is down on the list of issues in the cue, but we are getting pressure from La Plata Cty to provide them the results yesterday.

EUL tells me that he should have a simple report on the sample results that you asked for by tomorrow. We propose to provide the county the results in a simple spreadsheet that looks nice and this messaging. The final QA package will come later.

Thanks,

Mike
